IV. Information Items

A. Social Media Litigation

Dr. Mark Cantu, Deputy Superintendent, Governance and Education Services

This national litigation involves claims against major social media companies alleging their platforms contribute to youth addiction and mental health harms, with school districts seeking recovery of costs associated with increased counseling, staffing, student discipline, technology restrictions, and instructional impacts.

The litigation is progressing in federal court, with initial trials anticipated in 2026, and more than 80 Texas school districts have already joined following required approvals. Participation may allow the district to recover costs already incurred and offset future expenses related to student mental health services and potential compliance with emerging legislation addressing student access to social media.

Legal services, if pursued, would be provided on a contingency fee basis in accordance with Texas law, with no upfront cost to the district and no financial obligation unless a recovery is obtained. Texas code requires any governmental entity, including school districts, to get written approval from the Texas Attorney General before a contingency fee contract for legal services are legally binding.

B. Advancement Via Individual Determination (AVID)

Dr. Katrina Bailey, Chief of Learning and Leadership

Middle school campuses across the district are experiencing persistent academic challenges, particularly in core subject areas such as reading, writing, and mathematics. Historical student performance data indicates that many middle school students are not meeting grade-level expectations, and campuses are seeking additional support to strengthen instructional practices, increase student engagement, and improve overall academic outcomes.

To address these needs, the district is partnering with AVID (Advancement Via Individual Determination), a nationally recognized college and career readiness system designed to support students through rigorous instruction, academic support, and strategies that promote critical thinking, organization, and collaboration. AVID provides professional development for teachers, instructional coaching, and research-based strategies that help educators better support diverse learners while building a strong academic culture on campus.

Through this partnership, middle school teachers and campus leaders will receive targeted training and ongoing support focused on instructional best practices, student engagement strategies, and systems that promotes college and career readiness. The program also emphasizes writing, inquiry, collaboration, organization, and reading (WICOR), which aligns with the district's goal of strengthening academic performance and preparing students for success in high school and beyond.

Approval of this contract will allow the district to implement AVID support across middle school campuses, providing staff with the tools and resources needed to address current academic gaps and accelerate student achievement.

All board comments and questions were addressed.

C. 2026-2027 TEKS Certification

Dr. Katrina Bailey, Chief of Learning and Leadership

Annually, the district is required to certify that the purchased instructional materials for students are aligned to the Texas Essential Knowledge and Skills.

By approving the certification document, the board president, the board secretary, and the superintendent certify that:

- The district's instructional materials allotment is only used for expenses allowed by the Texas Education Code chapter 31.0211
- For the current school year, the district has instructional materials that cover all elements of the required state curriculum

● Upon request, the district will provide to the State Board of Education the title and publication information for any materials requisitioned or purchased by the district
Administration has verified that Del Valle ISD meets all three of these criteria and thus recommends to the board to approve the certification document and provide the appropriate signatures.

All board comments and questions were addressed.

D. SB 546 Required Reporting on School Bus Seat Belt Costs
Mark Willoughby, Chief Operations Officer

Senate Bill 546, passed during the 89th Texas Legislature, strengthens standards for school buses transporting students in Texas. The bill amends Texas Transportation Code §547.701, with the addition of subsection (f), requiring that all school buses operated by or contracted for use by a school district be equipped with three-point seat belts for every passenger, including the driver.

If a school board determines that the district's budget does not allow for the purchase of buses equipped with three-point seat belts, the district must present a report in a public board meeting that includes:

1. The number of buses operated by or contracted for use by the district that:
 a. are not equipped with seat belts;
 b. are equipped with two-point seat belts;
 c. are equipped with three-point seat belts; and
 2. The estimated cost to the district to equip all buses with three-point seat belts.

The same information must be provided to the Texas Education Agency.

All board comments and questions were addressed.

E. Consideration of External Audit Services
Dina D. Edgar, Deputy Superintendent of Administrative Services

The district is required to have a financial audit of its records each fiscal year to comply with Generally Accepted Accounting Principles (GAAP), state law, and to ensure compliance with bond covenants.

It is necessary for the Board to approve an engagement letter each year so that the audit staff can begin preliminary testing in conjunction with the end of year audit. The engagement letter from Pattillo, Brown & Hill, LLP, dated March 12, 2026, is attached for the Board to execute. The estimated fees are $51,500 which represents an increase of $1,000 from the prior year.

All board comments and questions were addressed.

F. Budget Amendment for General Fund
Dina D. Edgar, Deputy Superintendent of Administrative Services

The Texas Education Code requires that every local education agency in Texas prepare and file a budget of anticipated revenues and expenditures with the Texas Education Agency at the fund and function level. The Board shall amend the budget when a change is made increasing/decreasing any one of the functional spending categories or increasing/decreasing

revenue object accounts and other resources.

regular updates on district goals and their corresponding Goal Progress Measures (GPMs). These updates ensure that the Board and administration remain aligned on student outcomes through transparent, data-driven monitoring of progress toward the district's long-term goals. This report provides a revised Mid-Year (MOY) progress monitoring update on Goal 1: Early Literacy, following corrections to the MOY MAP Growth data based on testing factors identified during the administration window. After reviewing testing conditions and data integrity indicators, adjustments were made to ensure the results more accurately reflect student performance.
The district's long-term goal remains that the percentage of 3rd-grade students meeting grade level or above on STAAR Reading will increase from 32% in June 2025 to 60% by August 2030. A. Committee Updates by Board Trustees

Melinda - Attended Austin 2030 Advisory Board meeting this month. They approved a draft recommendation on the college promise proposal. They are moving along with implementation of it and look forward to bringing it to DVIS and having our students be a part of this.
Franco - Attended CAPCOG this month. It is composed of elected officials from different parts of Central Texas who come together to talk about similar problems and issues and try to have a collective answer for these things. This meeting was a workshop that covered grants with a wonderful guest speaker but unfortunately these particular grants are not available to school districts. The conversation was lively and it was great to be involved, representing Del Valle and let them know our students are doing great things.

Elvia - Update on the LSG Committee. Later tonight it will be brought up in action to approve the development and implementation of a formal two-way communication system. For the short-term two-way communication, they are asking anyone who is able and can commit from here to the end of the year to attend two different events and talk about where we are with our guardrails and goals. She stated that questions shouldn't be open-ended questions, but rather regarding goals and guardrails and talking to the community. Secondly, they've heard everybody's opinions and suggestions from the last board meeting regarding what the long-term system should look like. At their last meeting with Dr. Cantu, they looked at when scores are coming in, looking at the calendar when all this information gets desegregated so they can set up with two-way communication, town halls, listening sessions with the community. They looked at the beginning, middle and end of the year with information to be forthcoming once they get recommendations later in June. Tonight, the voting is only on the short-term two-way communication. Emphasized that attending the events isn't mandatory for everyone, but if they are able to attend, that would be great.

B. Discuss, Consider and Possibly Act on Submission of Waiver for Remote Homebound Instruction for Special Education Students

Dr. Katrina Bailey, Chief of Learning and Leadership
Homebound instruction may be provided to students aged six years or older when determined appropriate by the student's ARD committee. This determination requires that all applicable criteria be met, including the receipt of appropriate medical documentation.
School districts may provide remote homebound instruction to students receiving special education and related services with an approved waiver. Remote homebound instruction may be considered only when the following criteria are met:

- The student's ARD committee has determined, in accordance with state and federal law, that remote homebound instruction meets the individual needs of the student;
- This determination is documented within the student's Individualized Education Program (IEP); and
- All requirements related to the provision of homebound

At this time, Del Valle ISD is requesting a waiver to provide individualized instruction for two (2) special education homebound students through a remote platform rather than in-person services. The homebound teacher will implement all required components of homebound instruction virtually in place of a face-to-face setting.
Del Valle ISD remains committed to providing high-quality, individualized instruction to all students, including those receiving homebound services, regardless of whether services are delivered remotely or in person.

Secretary Wegner made the motion to approve the waiver for remote homebound instruction to students receiving special education and related services, it was seconded by Trustee Franco. The motion passes 6:0

DEL VALLE INDEPENDENT SCHOOL DISTRICT

- **Curriculum concerns for Health Smart & The Great Body Shop:**
  - We would need to purchase the full Health curriculum, as the opt-in content is not available as a separate resource.
    - Health Smart: We would have to purchase their 4th, 5th, and middle school health curriculum then piece together the opt-in content.
    - The Great Body Shop: The district will be left with a surplus of materials that will not be utilized.
- **Curriculum Concerns for AISD:**
  - Their curriculum is set up to have 5, 30-45 minute lessons and are set up to be in a more intimate classroom setting.
  - Our district is accustomed to teaching the opt-in content for 45 minutes in 1-3 days having all the boys in one area and the girls in another area.

Tiered Funding Updates

DEL VALLE INDEPENDENT SCHOOL DISTRICT

Intensity Tiers

To determine the tiers of intensity in the new intensity of services funding model, there are 5 domains for which an intensity level of support must be determined based on ARD committee decisions documented in a student's individualized education programs (IEPs).

Curriculum and Instruction

Determined via ARD/IEP

Behavior

Determined via ARD/IEP

Communication

Determined via ARD/IEP

Independent Functioning

Determined via ARD/IEP

Personal Care/Health

Determined via ARD/IEP

Tiered Funding Updates

DEL VALLE INDEPENDENT SCHOOL DISTRICT

Each domain is evaluated independently using IEP documentation and considers **4 key factors:**

- **The type, nature, and frequency of services**
- **Whether a specialized provider is required**
- **Whether a specific staff to student ratio is necessary**
- **Whether specialized equipment or technology is needed**

Domains are scored on a four point (0-3) scale, with the highest factor score determining the overall domain intensity.

Service Groups

The model includes five service groups, organized into two categories:

Service Groups 1–3: Related Services intensity (minimum, moderate and significant)

Service Groups 4–5: 1:1 provider support intensity

Tiers of Intensity Determination

DEL VALLE INDEPENDENT SCHOOL DISTRICT

Once the composite score is calculated, the tier of intensity will be determined by the following:

OVERALL POINT TOTAL	TIER OF INTENSITY
0 - 1	Tier 1
2 - 4	Tier 2
5 - 7	Tier 3
8 - 10	Tier 4
11 - 13	Tier 5

Tier 6: A score of 14 specifically due to four domains rated as significant and one domain rated as moderate.

Tier 7: A score of 15 due to all 5 domains rated as significant.
