A question about a resident converting their property and obtaining a liquor license was brought forth. Ms. Crotty clarified they would have to go through the process regarding zoning regulations and requirements in order for that the happen. The establishments in the area which currently have liquor license should not be affected, but could trade their license. This legislation creates an additional pool of compartments for new businesses. She continues to explain the parameters of a D5 which allows an establishment serve beer, wine, and liquor with a license. The next step would be, upon approval, the legislation would need to be file with the state and see if all statutory requirements have been met.

Mrs. Shoop opened the Public Hearing up for public comments for the Community Entertainment District. No one from the public spoke for or against this matter.

Mrs. Shoop asked for a motion to adjourn the Special Meeting – Public Hearing.

What is a Community Entertainment District (CED)?

Ohio Revised Code Definition (Section 4301.80)

a bounded area that includes or will include a combination of entertainment, retail, educational, sporting, social, cultural, or arts establishments within close proximity to some or all of the following types of establishments within the district, or other types of establishments similar to these:

- Hotels
- Restaurants
- Retail sales establishments
- Enclosed shopping centers
- Museums
- Performing arts theaters
- Motion picture theaters
- Night clubs
- Convention facilities
- Sports facilities
- Entertainment facilities or complexes
- Any combination of the establishments described in division (A)(1) to (11) of this section that provide similar services to the community.

Within such an area established as a CED, availability of liquor permits is increased.

Application & Approval Process

O.R.C. 4301.80 (C)

Application is submitted to Mayor/City Manager → Within 30 days, Mayor/City Manager submits to Council with recommendation → Within 30 days of receipt from Mayor/City Manager, Council publishes notice in paper for 2 consecutive weeks → Within 75 days from date application filed, Council must pass legislation approving/disapproving

Application can be submitted by the City or any property owner in the City

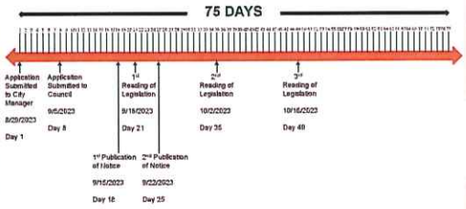

Why form a CED?

A CED increases the City's quota of D-5 – type permits

- Establishing a CED creates a new, geographically-limited allocation of permits that are comparable to the D-5 permit
- This additional allocation of permits (known as D-5j permits) is to help facilitate the development or revitalization of mixed-use areas

Timeline

Key Provisions for CEDs

A CED must have a MINIMUM area of **20 acres**

A CED may have up to **1 permit for every 5 acres – maximum of 15 permits** (No additional permits once CED exceeds 75 acres)

In a city the size of Painesville, each CED must have a MINIMUM of **$50 million** in planned public and private development project investment

Other considerations:

- *Permits can be transferred but ONLY within CED boundaries*
- *A D-5j permit holder has the same privileges and is under the same restrictions as the holder of a D-5 permit*
- *The City controls creation of the CED, but the Ohio Division of Liquor Control still controls the issuance of the permits*

Conclusion

- Formation of a CED is consistent with the City's vision to create a vibrant mixed-use environment and helps ensure there is a readily available supply of permits for restaurants planning to locate in Painesville
- Eligibility thresholds to create a CED are met
- Statutory requirements have been met
- Legislation to create the CED is on Council's agenda tonight for its 3rd reading

Boundaries as Submitted with Application - 231± acres

ITEM #6 RESOLUTION
***1st Reading* – A Resolution authorizing and directing the City Manager to accept the deed from the Lake County Land Reutilization Corp for the property located at 160 S. St. Clair Street and to file the deed with the Lake County Recorder's Office, and declaring an emergency.**

City Manager Doug Lewis spoke on this piece of legislation. He stated in 2018 the City of Painesville acquired the dilapidated property located at 160 South St. Clair Street with the intent of having it torn down by the Lake County Land Reutilization Corporation and for the purpose of having this land become part of a future development. On July 23, 2019, the City of Painesville entered into an agreement to transfer the property located at 160 South St. Clair Street to the Lake County Land Reutilization Corporation to demolish the dilapidated building located on the site. The agreement required the Lake County Land Reutilization Corporation to transfer the property back to the City of Painesville upon our request. Since we are currently working with a developer, Payne & Payne, to install a new model single family residential home along East South Street, we wanted to reacquire the property at 160 South State Street. Once they have built and sold the model along East South Street, Payne & Payne would like to obtain additional land owned by the City of Painesville and install more single family housing on the former hospital site. If City Council accepts the property at 160 South St. Clair Street, it will be incorporated into the 3.31 acre parcel of land that the City owns on E. High Street and S. St. Clair Street. Payne & Payne will be going to Planning Commission in November to request a minor subdivision so they can build a new model home along East South Street. In order for them to move forward, the Planning Commission will have to approve the minor subdivision and Covenants and Deed Restriction on the property and the City Council will have to approve the transfer of the property to Payne & Payne as well as the Covenants and Deed Restrictions to be placed on the property. Legislation with be forthcoming. There will be approximately $2,500 cost if we are required to survey the property and file the deed with the Lake County Recorder's Office. This legislation can go three readings if City Council chooses.

This will go to second read.
